WORK EXPERIENCE

Web Developer, Project Manager | Bright Bridge Web | Full-Time

08/2019 – Present

- Helped develop custom solutions for clients in various web and mobile technologies.
- Specialized in React.js for front-ends, Node.js and PostgreSQL for back-ends, and React Native for mobile.
- Managed several projects from start to finish, ensuring team always had clear direction and tasks to complete.
- Served as lead developer on several projects, collaborating with clients and the development team to understand and implement creative solutions on a daily basis.

Web Developer | Dev Mountain Student | Full-Time

02/2019 – 06/2019

- Built nearly one hundred demo applications while learning the fundamentals of web development.
- Created two full CRUD applications with React front-ends, Node.js REST APIs, and PostgreSQL databases.
- Collaborated with a small team to create an interactive map website of all US counties that allows users to view each county's data and dynamically shade the map according to a number of user inputs.

Translator | Self-Employed | Part-Time

06/2017 – Present

- Translated hundreds of safety and technical documents between English and Spanish.
- Investigated unfamiliar technical topics to better understand the information and choose the most accurate phrasing possible.
- Served as a personal interpreter in Ecuador on a clean water humanitarian trip, explaining the technical process of filter installation to locals.
